

BETAGARD 9500

Pour Point Depresant

Description S-5651A is organic compound designed to improve the pour point of crude oil, heavy fuel oils, feedstocks and gas oil. This will eliminate or lessen the need for electrical heater, sand heater, heated storage as well as an expensive crude blending. S-5651A will improve the fuel oil quality with minimum of reversion, if any.

Product benefits :

- Improve handling properties.
- Lower pour point.
- Eliminate expensive blending stocks.
- Reduce heating requirements.

Properties

Appearance	Yellowish to amber liquid
pH	NA
SG	0.80 – 1.00
Solubility	Completely insoluble in water

Dosage and Feeding

Dosage will vary from less than 10 ppm to as much as 50 ppm depending upon the type of system, temperatures, type of crude oil and the desired of pour point.

Handling and storage

Do not contact skin. Do not get in eyes. Avoid breathing of vapor, use with the adequate ventilation. Keep away from heat and open flame. Keep container closed when not in use. In case of contact, immediately flush skin with plenty of water for at least 15 minutes, consult a physician. Immediately flush eyes with large amount of water for at least 15 minutes and get medical attention.

Packaging

In plastic container with net weight 25kg or 200Kg.
